#### ANGEL ONE

FEB 2024 – PRESENT

- Senior Software Engineer (SDE II)
- Led a team of 4 to architect and rebuild **login** and **watchlist** modules, increasing **crash-free** sessions to 99.9%.
  - Planned sprints** and allocated resources; improved sprint efficiency across 2 key modules.
  - Built a comprehensive UI component library, reducing UI development time by ~20%.
  - Migrated** the login module to **SwiftUI** in 1 sprint.
  - Implemented advanced **memory optimizations**, cutting CPU usage of 2 key modules by 35-40%.
  - Introduced **VIPER** architecture to support a **scalable** in 2 key modules, modular codebase
  - Worked on **operation queues** to ensure code structure and maintain multiple API call integrity.
  - Integrated multiple **payment SDKs** and chatbots; applied dependency injection throughout the project.
  - Reduced app-side payment errors to ~0.1% via structured **async** dispatching

#### FURLENCO

JAN 2022 – DEC 2023

- Senior Software Engineer
- Rebuilt the entire Furlenco app in SwiftUI, in a **6 months sprint**, enabling new features and improved maintainability.
  - Engineered custom **SwiftUI** components to support **iOS 13 limitations**.
  - Pioneered scrollers and **infinite carousels** using mathematical calculations.
  - Published the app to **App Store** and oversaw developer account.
  - Incorporated and managed **custom payment** flows with Juspay, Razorpay, and Cashfree SDKs.
  - Reduced third-party dependencies and enhanced code reliability.
  - Introduced **MVVM** to modularize the codebase.

#### CREX (PARTH TECH DEVELOPER)

MAY 2020 – JAN 2022

ASDE (iOS)

IOS Dev Intern
